

eTEC Dry Wipe Laminate Film 50 micron

Product Description

eTEC Dry Wipe Lamination film is a PVC free glossy 50micron polypropylene film ideal for over-lamination of printed graphics where a dry wipe finish is required

Key Features

- 50 micron polypropylene dry wipe film
- 30 micron of aqueous acrylic high tack pressure sensitive adhesive
- 70gsm moisture tolerant siliconized PE coated white kraft release paper
- Excellent adhesion to wide format prints.
- Bonds particularly well to UV print without leaving any 'silvering'
- PVC Free
- Can be cleaned using a solvent-based cleaner and suitable non-abrasive cleaning cloth without affecting the tough gloss coating.

Additional Information

APPLICATION TEMPERATURE: >5°C; <40°C

STORAGE: When unused, product must be stored in an environment which will have reasonable temperature and moisture control (Temp 23°C +/- 2°C, R.H. <55%) and not have excessive exposure to ultraviolet radiation. This will help to prolong the usable life of the product.

SHELF LIFE: 1 year when above storage conditions are maintained.

MINIMUM EXPECTED 'IN USE' LIFE: 1 year indoors, 3 months outdoors in moderate sunlight when above storage conditions are maintained.

*UV inks must be 100% dried and of even print texture not exceeding limitations of adhesive layer thickness.

All values and information issues are approximate and should only be used as a guideline. Products should be tested by the end user for absolute suitability with the substrates and environments upon which it is intended to be used. Premier Paper cannot be held responsible for any damage to printing and finishing equipment or surfaces to which products are applied.
