

Packaging Solutions

About Premier Packaging

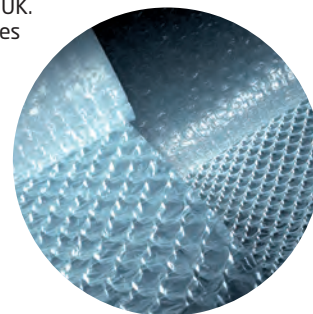

Premier Packaging is part of the Premier Paper Group, the UK's leading paper merchant and through its business divisions and nationwide branch network, offers a great choice of stock and bespoke products and services.

Our true UK wide, next day service is ideal for multi-site businesses and just in time deliveries meaning you can let us hold the stock instead of tying up space in your warehouse.

The Premier Service

The Premier Packaging team have extensive knowledge and experience in the packaging sector and work alongside our clients to help understand their business needs and work towards the right solution. Whether you are looking to improve protection, reduce the use of plastics, enhance the presentation, speed up the packing process or save money. We can help reduce the stress of finding that perfect packaging fit for you. Why spend hours of your time searching the internet trying to find the right solution? Let our team of Packaging Specialists do the work for you.

Premier is a major supporter and corporate partner of the Woodland Trust, the UK's leading woodland conservation charity, raising in excess of £1.22m to help in its work to plant and conserve native woodland in numerous locations across the UK. Premier Paper Group offers customers and their clients the opportunity to capture the CO₂ emissions from their purchases by planting native woodland, right here in the UK, through the Woodland Trust and the Woodland Carbon scheme.

DW201838	Standard New Wardrobe Boxes With Rail	508 x 457 x 965mm	20 x 19 x 38	10

Bespoke Boxes and Corrugated Board

When you need to despatch anything from small, fragile items to huge outdoor signs it's not always possible to find something off the shelf.

Premier can supply one to one million bespoke boxes and have a team of Packaging Specialists around the country that can help you along every step from design to delivery.

What are the benefits of having a bespoke box:

- Optimum protection for your product, reducing costs on damages and returns
- Internal / External print to promote your product
- Reduce packing times and improve productivity
- Make your brand stand out from the competition
- Give your customers that 'wow factor' when opening the box

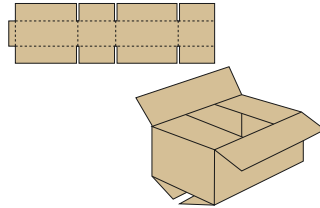

Bespoke Corrugate Board

- Can be used for packing, layer pads and P.O.S. work
- Purchase the exact size, board liner and fluting for optimizing the job
- Clay coated and digital grades available suitable for overprint

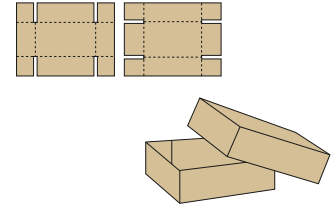

There are hundreds of different FEFCO box styles available, the most common ones being:

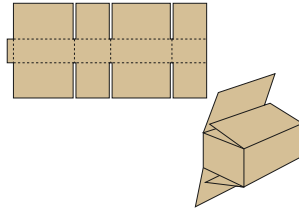

0201 This is the style of our corrugated stock boxes, the flaps meet in the middle at the top and bottom for taping closure

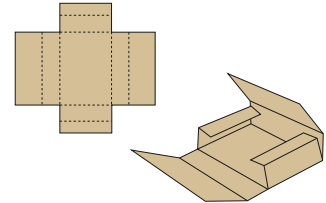

0301 This is a telescopic or 'tray and lid' box made up of two components. This gives extra protection around the length and width of the box

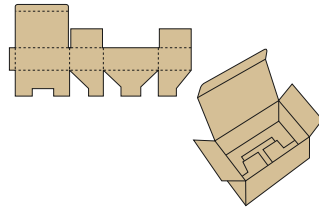

0203 Similar to the 0201 style but with overlapping flaps at the top and bottom of the box, increasing the protection in these areas

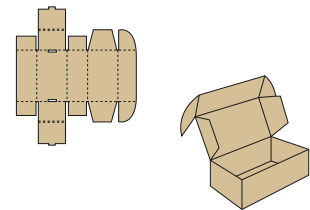

0401 Often referred to as a 'Maltese Cross' this style of box is ideal for packing thin items such as boards and signage

0215 The box has a tuck flap or 'crash lock' base meaning that the bottom of the box does not require taping. This can improve the time it takes to pack the product

0427 Commonly called a 'pizza style box' the flaps tuck into the box when the hinged lid is closed negating the need for using any tape

As well as the box style it's important to consider the board grade used.

All boxes are made from corrugated board that has a liner on both the inside and outside of the fluting. The strength depends on the combination of the size of the fluting and the weight of the paper. Boxes can be single or double wall, depending on the weight of the product to be carried and amount of protection you need.

NON CORRUGATED BOXES

Stationery Boxes

High quality solid board boxes with a collapsible base and lid.
Available in white and manilla, ideal for packing printed material.

Stock Code	Description	Pack Qty
BLA4	White A5 Stationery Boxes & Lids	50
BLA5	White A4 Stationery Boxes & Lids	50
RBA4	Manilla A5 Stationery Boxes & Lids	50
RBA5	Manilla A4 Stationery Boxes & Lids	50

Cardboard Business Card Boxes

Made from white 420 micron folding box board these white business card boxes are 100% recyclable. They come flat packed for ease of storage with a crash lock base so they can be assembled in seconds.

Stock Code	Description	Metric Size	Pack Qty
CARDBOX	White Cardboard Business Card Box	95 x 60 x 35mm	250
CARDBOXDH	White Cardboard Business Card Box	95 x 60 x 70mm	500

BUSCARDDH	Plastic Business Card Box	95 x 60 x 70mm	125
COMPBOX	Plastic Compliment Slip Box	215 x 103 x 55mm	100

A photograph of various packaging tools and materials. In the foreground, a red and grey heat gun is positioned on the left, and a blue and yellow tape dispenser is on the right. A pair of scissors with red and grey handles lies in the center. The background shows several cardboard boxes, one of which has printed text including 'N.W.', 'G.W.', 'KGS', and 'CM'. The text 'PACKAGING TAPES' is overlaid in the center in a bold, blue, sans-serif font.

PACKAGING TAPES

Tapes Explained

Pressure sensitive tapes are made of two elements, the carrier and the adhesive. The strength of a tape is defined by the combination of materials used in its construction. A wide range of both carriers and adhesives are available for specific applications but Premier's stock tapes are mainly made from polypropylene and vinyl.

CARRIER

This is the material to which the adhesive is applied and is usually 48mm wide. Different carriers have different properties and can be supplied in a variety of weights and materials including cloth, tissue, paper, polyester and foil. The most commonly used carriers are included in the Premier range.

Polypropylene

- **Cannot be torn by hand**
- **Stretches lengthways**
- **Tape releases from the roll with a screech**

Low Noise Polypropylene

Same as above but with a special liner added to reduce the amount of noise created when releasing the tape.

Vinyl

- **Can be torn by hand**
- **Stretches across the width of the tape**
- **Tape releases silently from the roll when pulled**

Paper

- **Environmentally friendly option**
- **Available in self-adhesive or gummed**
- **Enhances look of the sealed box**

ADHESIVE

Different types of adhesive perform well under different conditions:

Acrylic

- A good general purpose adhesive
- Tends to be the cheapest option
- A synthetic, water based material with a sweet smell
- Not suitable for use in extreme conditions

Hot Melt

- Hot melt adhesive has a burnt plastic smell
- Performs well in a wider range of conditions and on a wider range of surfaces than acrylic adhesives

Solvent

- Solvent adhesive has an odour not too dissimilar to nail varnish remover
- It is well suited for use in low temperature conditions
- Solvent is the most expensive form of adhesive

In theory any adhesive can be added to one or both sides of a carrier. The best carrier and adhesive combination depends on the surface that the tape is being applied to and the stresses it is expected to endure.

Bespoke printed tape is the ideal solution to enhance the brand and advertise the product, helping improve the box opening experience.

Premier can supply bespoke printed tape with order quantities starting at just 72 rolls. This can be done on standard polypropylene, vinyl and paper tapes as well as specialised tapes such as crossweave, tamper evident and masking tapes.

Contact your local sales office and our team of experts can guide advise the optimum tape and design for you.

Vibac® are a market leading tape manufacturer. The range is suitable for all types of carton sealing and application (both manual and automatic), ensuring high sealability of packaging both in storage and transport.

Vibac® Hot Melt

Hot melt box sealing tape for light to medium applications.

Stock Code	Description	Metric Size	Pack Qty
VIBACBUFF	Vibac 425 Buff Polyprop Hot Melt	48mm x 66m	36
VIBACCLEAR	Vibac 425 Clear Polyprop Hot Melt	48mm x 66m	36
VIBAC132B	Vibac 425 Buff Polyprop Hot Melt	48mm x 132m	36
VIBAC132C	Vibac 425 Clear Polyprop Hot Melt	48mm x 132m	36
VIBAC7566BU	Vibac 425 Buff Polyprop Hot Melt	75mm x 66m	24

VIBAC48990C	Vibac 425 Clear Polyprop Hot Melt	48mm x 990m	6

For Vibac® masking tape please see page 24

Vibac® Low Noise Acrylic

Acrylic box sealing tape for medium applications requiring low noise unwindings.

Stock Code	Description	Metric Size	Pack Qty
VIBACLNB	Vibac 828 Buff Polyprop Low Noise Acrylic	48mm x 66m	36
VIBACLNC	Vibac 828 Clear Polyprop Low Noise Acrylic	48mm x 66m	36

Vibac® PVC Vinyl

Natural Rubber Box Sealing Tape for heavy applications.

Stock Code	Description	Metric Size	Pack Qty
VIBACVINYLBU	Vibac 701 Buff Vinyl Solvent	48mm x 66m	36
VIBACVINYLCL	Vibac 700 Clear Vinyl Solvent	48mm x 66m	36

3M Tape

3M 371 tape is a quality, popular polypropylene tape used in a wide range of packing environments.

Stock Code	Description	Metric Size	Pack Qty
3M371B	3M 371 Buff Polyprop Hot Melt	48mm x 66m	36
3M371C	3M 371 Clear Polyprop Hot Melt	48mm x 66m	36

Polypropylene Acrylic Tape

A cost effective tape available in standard and low noise variants.

Stock Code	Description	Metric Size	Pack Qty
T105112	Clear Polyprop Acrylic	25mm x 66m	72
809BUFF	Buff Polyprop Acrylic	48mm x 66m	36
809CLEAR	Clear Polyprop Acrylic	48mm x 66m	36
819BUFF	Buff Polyprop Low Noise Acrylic	48mm x 66m	36
819CLEAR	Clear Polyprop Low Noise Acrylic	48mm x 66m	36

PVC Vinyl Tape

Strong, highly versatile and with superior adhesion in both cold and ambient temperatures.

Stock Code	Description	Metric Size	Pack Qty
808BUFF	Buff PVC Vinyl	50mm x 66m	36
808CLEAR	Clear PVC Vinyl	50mm x 66m	36
808WHITE	White PVC Vinyl	48mm x 66m	36

Crossweave Filament Tape

Made with reinforced fibres that run vertically and horizontally through the tape giving extra tensile strength. Ideal for high security and heavy duty sealing.

Stock Code	Description	Metric Size	Pack Qty
CWT2450	Crossweave Tape	24mm x 50m	36
CWT5050	Crossweave Tape	50mm x 50m	18
CWT7550	Crossweave Tape	75mm x 50m	12

Coloured Tape

Low noise coloured tape, often used to help identify packed items.

MFPP23MIC	Machine Pallet Wrap Power Pre-Stretch 23Mic	500mm x 1500m	1	46

If you currently have a pallet wrap machine you can book a film review with Premier which could save you money, improve your efficiency and reduce the amount of film you are using.

- Save money, reduce your stretchfilm costs by up to 50%
- Improve load stability, keeping your product secure and safe in transit
- Use less plastic, less waste for you and your customers
- Wrap more pallets with less film
- Less roll changes saving you time

POLYTHENE

POLYTHENE

Bespoke Polythene

To help your product stand out from the competition we can help you design and produce your own personalised mailers and carrier bags. Bespoke polythene bags are available in low or high density polythene and can be made from recycled, biodegradable and compostable materials.

Some of the most popular ways of customising polythene are:

- Adding additional peel and seal return strips
- Full colour print to enhance your brand
- Gusseted sides and base to make it easier to send bulky items
- Tamper evident openings
- Reinforced patch handles

FLEXI-HEX[®]

Box & Sleeve

Flexi-Hex[®] make paper packaging solutions that are designed to protect both products and the planet. Their patented honeycomb packaging sleeve is a superior alternative to bubble wrap, air-filled bags, moulded pulp and polystyrene.

The hexagonal structure of the sleeve make it incredibly strong, passing both European drop tests from 1.2m and their own drop tests from 4m. The sleeve, compact in its natural state, can expand up to 35 times its size, making it adaptable to protect products of all shapes and sizes. And most importantly, their sleeves are made from over 85% recycled content, are household recyclable and biodegrade in 6 weeks.

Originally created to protect surfboards in transit, they now produce packaging sleeves for a range of industries including drinks, homeware, cosmetics and electronics. Beyond the sleeve, they also create full solution e-commerce packaging that ensure fragile products arrive with consumers both beautifully and damage-free.

Stock Code	Description	Pack Qty
FLEXI-HEXSI	Pinch Top Single & Sleeve	100
FLEXI-HEXDB	Pinch Top Double & Sleeves	100
FLEXI-HEXTR	Pinch Top Triple & Sleeves	100

The image shows two rolls of white, porous foam cushioning material. The roll on the left is larger and positioned diagonally from the top left towards the bottom right. The roll on the right is smaller and positioned diagonally from the top right towards the bottom left. Both rolls have a visible grid-like pattern of small holes, characteristic of expanded polystyrene (EPS) foam. The word "CUSHIONING" is printed in a bold, blue, sans-serif font across the center of the image, overlapping both rolls. The background is a plain, light gray surface.

CUSHIONING

Small Bubble Wrap

Small bubble rolls offer flexible lightweight cushioning on products in transit and can be used as an 'in the box' void fill solution.

Stock Code	Description	Metric Size	Pack Qty
SB30100	Small Bubble Wrap	300mm x 100m (x5)	1 Bundle of 5 Rolls
SB50100	Small Bubble Wrap	500mm x 100m (x3)	1 Bundle of 3 Rolls
SB60100	Small Bubble Wrap	600mm x 100m (x2)	1 Bundle of 2 Rolls

ColomPac® Book Wraps

ColomPac® Book Wraps are built using durable FSC® cardboard with strong corners and reinforced edges providing superior protection. For quick and easy packing, simply wrap the sides around your contents, and then use the self-seal strip to create a tamper-proof seal - no other sealing is required. Tear-open strips enable the receiver to open again in seconds.

MACHINERY

PACKAGING MACHINERY

Premier offer a range of packaging machinery to help improve the packing process. For further information, spec sheets and videos please contact your local sales office.

Water Activated Tape Dispensers

The most environmentally way of taping boxes. Using water activated tape creates a tamper evident seal, improving the presentation of the boxes and increasing productivity.

- High capacity water bottle sufficient for wetting 2,500-3,600mtr of 70mm wide tape
- Excellent design and build quality for ease of use, long life and extended service intervals
- Colour coded keys pre-set for popular tape lengths
- Tape length adjustable in 0.5" (12.7mm) increments, up to 3050mm
- Maximum tape width: 76mm
- Tape compatibility: Plain or reinforced water activated tape
- Power requirement: 220-240V AC, 50Hz, 500W

Stock Code	Description
BP555	Electric Water Activated Tape Dispenser

- Portable water activated tape dispenser that does not require electricity
- Easy push tape dispensing
- Blade delivers clean, even tape cutting
- Water brushes provide consistent, uniform tape wetting
- Refillable and spill-resistant water tank holds 227ml of water to activate 114mtrs of tape
- Push lever dispenses 254mm length of tape; repeat push lever for longer tape lengths

Stock Code	Description
BP222	Manual Water Activated Tape Dispenser

For Water Activated Tape please see page 22

Pallet Stretch Wrappers

By applying tension to stretchfilm between leaving the roll and being applied to the pallet can extend it's length by up to four times meaning a 75% reduction in film usage. As the film is under tension before it is applied it contracts to the goods holding the palletised goods more securely.

- 300% power pre-stretch - 1 metre of film stretches to 4 metres
- 1650mm turntable with 2000mm wrapping height
- Home position: the turntable always stops at the same position
- Pallet height photo sensor
- Adjustable tension, turntable and carriage speed
- Soft start & stop with cycle pause function
- Choice of automatic or manual modes
- 180 degree rotating control box
- Troubleshooting information displays on screen
- Safety switch to prevent foot pinch

Stock Code	Description
PSW002	Semi-Automatic Powered Pre-Stretch Machine

To discuss the entire range of pallet stretch wrappers and to find the best solution for your business please contact your local sales office.

For Machine Stretchfilm please see page 33

Cardboard Shredders

Turn small quantities of old cardboard into packaging void-fill and protective matting material. The ideal environmental solution.

Simple plug and play operation with integral operator safety measures.

- Cuts 320mm wide and 12mm thick
- Unlimited runtime
- Outputs 2-3m cubed per hour with a feed rate of 12m per minute
- Dust extraction outlet

Stock Code	Description
OP320	OP320 Cardboard Shredder

Shrink Chambers

Shrink chambers are the perfect solution to pack smaller items into one package and add extra protection to the goods.

- Seal and shrink in one operation
- Sealing dimensions: 420 x 550mm
- Max. height of package: 250mm
- Max. dimensions of film roll: 600mm x Ø250mm
- 240V single phase - requires a minimum 16A power supply
- Machine dimensions: 1320 x 820 x 645mm (L x W x H)

Stock Code	Description
SC455	Shrink Wrapper Chamber 420 x 550mm

For Shrinkfilm please see page 49

Friction Weld Tool

Friction weld tools greatly increase productivity when strapping pallets, saving time and ensuring the perfect tension is applied.

- A professional lithium-ion powered strapping tool with flexible settings, wide tension range and compatibility with PP and PET strapping
- Simple to operate, the single button automatic mode completes the strapping process in less than three seconds
- Suitable for 12mm width strapping, 16mm and 19mm tools also available
- Bosch high capacity battery provides up to 550 strapping cycles per charge for PP and 320 for PET
- Advanced friction weld sealing technology guarantees a reliable joint and high sealing efficiency

Stock Code	Description
RXT12	Optimax Friction Weld Tool

Strapping Machines

Used to quickly and securely products together without the need for tape.

- High speed automatic strapping machine
- Ergonomic, user friendly design
- Up to 65 cycles per minute
- Auto strap feed / ejector
- Suitable for 12mm strapping
- Integral front foot bar switch

Stock Code	Description
HQS80-15-12	Auto 12mm Strapping Machine 650 x 500mm Arch

For Strapping please see page 37

AIRplus® Machines

Our AIRplus® machines are quick, compact and always ready for use. Due to their compact size they are portable and can be flexibly integrated into existing packing processes - including in combination with automated packing lines and storage containers at the packing station.

AIRplus® Films

Tailored solutions are important, which is why Premier offers several film varieties. The know-how, development, expertise and the practical experience means constant quality, delivery, security and progress through innovation.

- Co-extruded film for extra durability and reliability
- Cannot be easily punctured by sharp objects, corners or edges
- Available as void, cushion, bubble or wrap film

AIRplus® Recycle

- Made from at least 50 percent recycled materials
- Suitable for light to medium weight products
- Available as void, cushion, bubble or wrap film

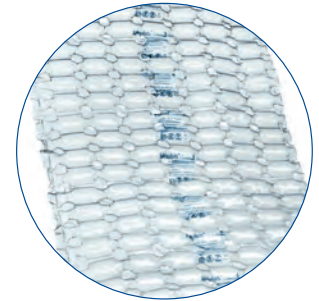

AIRplus® 100%

- Entirely made of post-consumer and post-industrial recycled material
- Reduces CO₂ emissions and water consumption compared to virgin material
- Can be recycled over and over again
- Available as void film

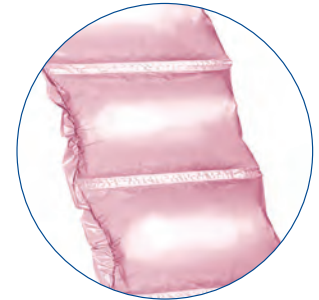

AIRplus® Heavy

- Exceptional mechanical strength properties and puncture resistance
- Oxygen barrier for air containment for long periods of time
- Ideal to use in storage applications
- High film transparency
- Available as cushion, bubble or wrap film

AIRplus® ESD

- Electrostatic dissipating film
- For the protective packaging of electronic components
- Complies with DIN EN 61340-501
- Available as void or cushion film

AIRplus® BIO

- Made partly from renewable resources such as polylactic acid
- Fully industrially compostable and certified in accordance with EN 13432 and ASTM D6400
- Exceptionally stable, elastic, airtight, and lightweight
- Available as void film

PAPERplus® Papillon

Thanks to its special, patented shape, the paper cushioning of the PAPERplus® Papillon system offers optimal protection for small and medium-sized shipping good. It's suitable for filling voids and wrapping products, boasts large volume at a low weight, and is especially soft and flexible.

Stock Code	Description
STOPAPIL70	Papillon void fill paper 70gm

PAPERplus® Classic

The PAPERplus® Classic and Classic 3 paper cushioning systems are the ideal protective packaging solution for heavy weight products. With paper pads made from one, two or three ply paper, light to heavy products can be securely blocked and braced in cartons and cushioned all - around. At the press of a button, PAPERplus® Classic produces robust, tear-resistant, flexible and highly versatile paper cushioning, Storopack customers can choose between the kraft, recycling and grass paper.

Two white envelopes are shown against a white background. The top envelope is slightly behind and to the left of the bottom envelope. Both envelopes have a blue rectangular return address label. The word "ENVELOPES" is written in bold blue capital letters across the center of the image.

ENVELOPES

A range of envelopes for every occasion

From opaque envelopes suitable for business communications and general multipurpose use to creative, eye-catching envelopes, we have the products to suit every requirement.

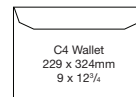

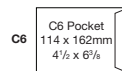

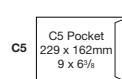

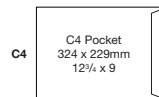

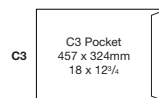

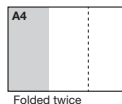

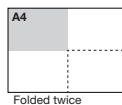

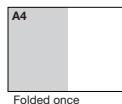

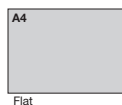

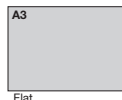

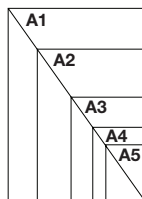

At Premier we recognise the need for specialist advice and a choice of envelopes in order to ensure the best results for our customers.

So whether your sending invoices, invitations, greeting cards or calendars our dedicated sales team are on hand to discuss your envelope requirements and offer you information to help make your selection easier.

In this brochure you will find a list of our stock envelopes as well as details for other envelope services that are available from Premier.

Choosing the right envelope

	Size in mm	Size in inches
A1	594 x 841	23 ³ / ₄ x 33 ¹ / ₈
A2	420 x 594	16 ¹ / ₂ x 23 ³ / ₈
A3	297 x 420	11 ³ / ₄ x 16 ¹ / ₂
A4	210 x 297	8 ¹ / ₄ x 11 ³ / ₄
A5	148 x 210	8 ⁷ / ₈ x 8 ¹ / ₄
C3	475 x 324	18 x 12 ³ / ₄
C4	324 x 229	12 ³ / ₄ x 9
C5	229 x 162	9 x 6 ³ / ₈
C6	114 x 162	4 ¹ / ₂ x 6 ³ / ₈
DL	110 x 220	4 ¹ / ₄ x 8 ⁵ / ₈

Choosing the right envelope

Board Back

Envelope opens along the short edge and has a rigid board to the back.

Available with Peel & Seal flaps. Printed 'Do not bend'. Ideal for items that require protection or security.

Pocket

Envelope opens along the short edge with square flap. Available in Gummed, Self Seal and Peel & Seal.

Wallet

Envelope opens along the long edge. Available in gummed, Self Seal and Peel & Seal.

Gusset

Pocket envelopes with expanding sides to take bulkier items.

Available in Peel & Seal flaps. Some sizes are available with windows.

Banker

Envelope opens along the long edge with a diamond shaped flap. Ideal for invitations and greeting cards.

Window

Window envelopes can save you time in not having to retype address details. Make sure you check window size and position before purchasing.

Sealing methods

1. Peel & Seal

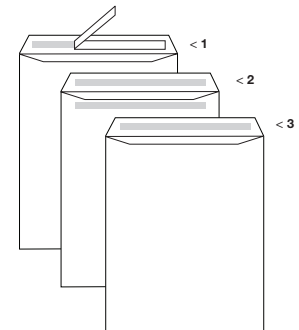

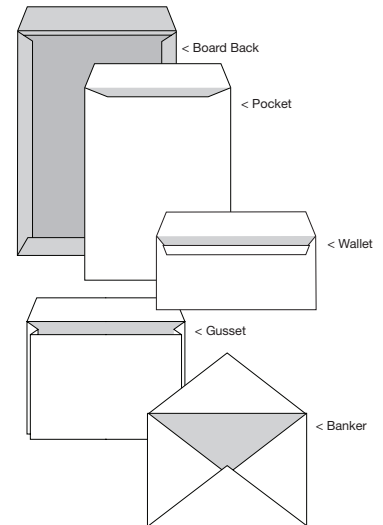

The speedy way to seal envelopes, simply peel away the release tape from the envelope flap to reveal a thick layer of adhesive which seals instantly with a strong bond. Seal strength does not weaken with age.

2. Self Seal

Press the two layers of adhesive (one on each flap) together to form an instant strong bond.

3. Gummed

Moisten the layer of adhesive along the envelope flap and close.

WOODLAND
TRUST

Printer Paper

The paper that plants trees

Woodland Trust Printer Paper is a high white, totally chlorine free printer paper for laser and inkjet printers, photocopiers and fax machines and is produced to the most demanding environmental standards.

Every sheet of Woodland Trust Printer Paper supports projects that improve biodiversity, enhance social wellbeing and help the UK landscape adapt to climate change.

Woodland Trust Printer Paper is mainly made from forest thinnings from sustainable forests and chippings from saw mills. The pulp and paper are produced on the same site, minimising transportation. 95% of the heat energy used to make Woodland Trust Printer Paper is generated from renewable bio-fuel produced as a bi-product by the mill. The surplus heat from the manufacturing process is piped to over 3,000 homes and civic buildings throughout the surrounding area. There are 0% CO₂ emissions from fossil fuels during the production process.

responsible forestry

Business is Better with Trees

Capture the CO₂ emissions from your product purchases with Premier's Carbon Capture® programme; a unique low cost environmental scheme for you and your customers that not only **provides a tangible demonstration of your company's responsible approach to the environment** but also creates native woodland here in the UK with the Woodland Trust.
