eTEC Polymeric Clear PVC Film Permanent Adhesive

Product Description

A clear permanent polymeric PVC film that provides a high-quality printing surface and excellent indoor and outdoor durability. The clear polymeric vinyl has a clear matte or gloss finish and a permanent clear adhesive. The high-quality clear adhesive is ideal for a wide variety of substrates, including windows, exhibition stands, vehicles and other smooth surfaces. The hugely versatile clear polymeric vinyl is ideal for general signage and display applications needing indoor and outdoor durability.

Key Features

- 80 µm Clear PVC film
- 140 gsm 2 Side PE Coated, 1 Side Siliconised White Kraft
- Clear Permanent Solvent Acrylic Adhesive
- Total Thickness 105 µm
- Adhesive weight 25 g/m
- Class C fire rated

Printability

Solvent, Eco Solvent, Latex & UV

Additional Information

Application temperature: min. +5°C
End-Use Temperature range: from -30°C to +80°C
Shelf life: 2 years (see application information)
Durability: Up to 7 years

The estimated durability is based on accelerated ageing tests and refers to a vertical exposure under middle European climates. The durability of the product depends on the substrate's preparation, the atmospheric conditions and the environmental influence. Exposure to extreme conditions (tropical climate, high humidity, high UV-light exposure or polluted areas) can decrease the durability in a dramatically way

All values and information issues are approximate and should only be used as a guideline. Products should be tested by the end user for absolute suitability with the substrates and environments upon which it is intended to be used. Premier Paper cannot be held responsible for any damage to printing and finishing equipment or surfaces to which products are applied.
