

Product information

Hansaboard GD2 is a White Lined Chipboard, with a white coated front and an uncoated grey reverse (GD2). Manufactured by Smurfit Westrock at their Hoya mill in Northern Germany. Hansaboard is made from 100% recycled fibres, 100% recyclable, FSC® certified and is EUDR compliant.

Applications

General household packaging • General food packaging • DIY packaging • Pharma and Healthcare

Process suitability

Ideal for high-quality print and packaging applications. Its coated surface ensures a brilliant print image, making it perfect for one-sided offset printing. With a top-side brightness of 86%, designs appear crisp and vibrant. The sheet offers excellent processing versatility: punching, creasing, scribing, and embossing (including Braille) are easily achievable. Its outstanding running characteristics support smooth performance in automated production lines.

Specifications

PROPERTY	AVERAGE
Substance (g/m ²) ISO536	408
Calliper (mm) ISO534	593
Brightness top side	86%
Stiffness MD (mN.m) ISO2493	37
Stiffness CD (mN.m) ISO2493	13
Shelf life (unopened)	1 year
Storage conditions	23 ^o +/- 1 ^o C, 50 % +/- 2% humidity
