Sustainability

Making the right choice, made easier

We understand that choosing the right material can be challenging—especially when balancing performance, sustainability, and suitability for your application.

That's why we've included clear icons to highlight key product features, such as **recyclable**, **elemental chlorine free**, **FSC® certified**, and **EU-made**. These markers make it easier to identify the best options for both you and your customers—helping you make informed, responsible choices with confidence.

FSC® certified

Programme for the Endorsement of Forest Certification™

ISEGA laboratory food contact certification

Product is compostable

Product is recyclable

Produced with recycled material

Product contains no optical brightening agents

Made in the European Union

Product contains no elemental chlorine

Robinson certified

Toy safety compliant

CARBON[®] CAPTURE

Our **Carbon Capture[®]** customers are helping to combat climate change by supporting the **Woodland Trust's Woodland Carbon scheme** – offsetting the CO₂ emissions from the production, storage, and delivery of the paper and materials they purchase through us.

- We work with our suppliers, using data from **The Carbon Trust** and **DEFRA**, to accurately calculate the average CO₂ emissions per tonne of paper.
- Customers in the Carbon Capture[®] programme receive the **Woodland Carbon logo**, which can be proudly displayed on print and digital media to showcase their environmental commitment.
- **100% of the Carbon Capture[®] charges** go directly to the Woodland Trust, funding the creation of native UK woodlands.

By choosing Carbon Capture[®], you're not just buying paper—you're investing in a greener future.
